Dedication

DONALD L. DUSTON

The untimely passing of Don Duston has rendered him a part of the very same history of Hampstead that he loved so much.

Don was affectionately known as the town's unofficial land historian. For 20 years he researched land and boundaries for surveyors and lawyers and through the years he collected volumes of books, maps and historical records. Included in his collection is the first United States census from 1790 with the names of all 121 heads of household in Hampstead—population 565. His ambition was to write a book of the history of the land—a project he called “a labor of love.” But that dream was never to be realized.

A ninth generation Duston, Don had nine brothers and sisters, was married to Virginia, had a son and daughter and three grand-children. He epitomized the Yankee spirit and traditions—farming his own land, erecting a wind-mill and bartering for services (but only when the task was something he absolutely could not do for himself!).

Don was a subtle environmentalist who often worked behind the scenes to make things happen in state government. He was instrumental in getting several bills passed for highway aid, the educational system and improvements in the banking industry.

His contributions of service to the town included countless hours of deed research for the Conservation Commission for acquisition and protection of conservation land and gathering data for the Rockingham Planning Commission's historical architectural survey. He served on the Board of Adjustment, was trustee of the trust funds, a volunteer firman, member of the Firemen's Association, Pinkerton Academy trustee and treasurer and charter member of the Hampstead-Timberlane United Fund. He also provided invaluable information to selectmen during the 1980 town-wide revaluation.

Several of Hampstead's streets, including Wheelwright Road and Kent Farm, were named because of his suggestions to builders and developers who sought to attach historical significance to their developments.

From 1959-1970 Don owned and operated Boston Beef—now known as Don's Market. He and his brother Harold started Sunset Park Campground in 1959.

One of Don's hopes and dreams for the future was to see the original library converted to an historical building for the preservation of the town's records, maps and photographs.

Don has left his mark in every corner of the town he loved and it is with a great deal of appreciation and pride that the residents of Hampstead dedicate this year's Town Report to Donald L. Duston.

REPORT OF THE BOARD OF SELECTMEN

The Selectmen organized in January and selected Brian Eastman as their Chairman. The board spent most of its time working on the town budget and town warrant during the first of the year. With the help of the Budget Committee, Department Heads and Committees, we were able to keep the budget under control again this year.

Two of the major actions of the town at our March Town Meeting were to support the Library Trustees in their request to purchase a building and remodel it as our new library, and to finalize the work of Selectman Hartung in the classification of many of the roads in town.

The Board of Selectmen had to go through a transition period this year. Brian Eastman chose to move from Hampstead, resulting in his leaving the board, effective with the March elections. Joe Guthrie was elected to replace Brian on the board, and as Chairman. The new board very quickly was able to work well together, but the expertise of Selectman Eastman was greatly missed in many areas.

The board had a number of problems brought before them during the year. Some of which were: Town building needs, the property inventories, West Hampstead Cemetery gates, the Lewis Water Company pollution, the Bailey Shore Road status, and the Recreation Zone assessments. We hope that the board has handled these and other problems satisfactorily and in the best interest of the town. We encourage our citizens to bring any problem affecting the town to the board.

Mr. De Matteo's efforts in the repair of the exterior of the Town Office building were much appreciated. The outside of this important asset will be protected for many years due to the work that was accomplished in this area.

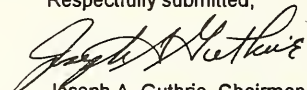

We wish to thank our Administrative Assistant, Priscilla Lindquist, who put a great deal of extra time and effort in setting up a new accounting system that was mandated by the state this year. This has resulted in better control and a new format for reporting the financial status of the town in this Town Report.

We would be remiss if we did not acknowledge all of those who gave of themselves volunteering the time necessary for Hampstead to function without the expense of a paid employee infrastructure. Volunteers allow us to keep the town side of government in control and we encourage any citizen who may be interested in helping to serve our community, to submit their name, qualifications and area of interest to the Board of Selectmen. We are looking forward to another year of accomplishing and encourage you all to help us by participating in the process with us.

We also encourage everyone to attend both our annual Town Meeting and the School District Meeting in the Hampstead Middle School gymnasium. The School District Meeting, where the majority of your tax bill is committed, will be held on March 5, Saturday morning at 10:00 AM. Town Meeting begins with the elections on Tuesday, March 8, from 10:00 AM until 8:00 PM with ballot voting for both Town and School District officers. The business portion of Town Meeting will continue on March 11 at 7:00 PM.

We look forward to seeing you all at these very important meetings.

Respectfully submitted,

Joseph A. Guthrie, Chairman

To the Board of Selectmen
Town of Hampstead, New Hampshire

We have audited the general purpose financial statements of the Town of Hampstead, New Hampshire for the year ended December 31, 1992, and have issued our report thereon dated April 19, 1993.

We conducted our audit in accordance with generally accepted auditing standards. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the general purpose financial statements are free of material misstatement.

In planning and performing our audit of the general purpose financial statements of the Town of Hampstead, New Hampshire for the year ended December 31, 1992, we considered its internal control structure in order to determine our auditing procedures for the purpose of expressing our opinion on the general purpose financial statements and not to provide assurance on the internal control structure.

The management of the Town of Hampstead, New Hampshire is responsible for establishing and maintaining an internal control structure. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of internal control structure policies and procedures. The objectives of an internal control structure are to provide management with reasonable, but not absolute, assurance that assets are safeguarded against loss from unauthorized use or disposition, and that transactions are executed in accordance with management's authorization and recorded properly to permit the preparation of financial statements in accordance with generally accepted accounting principles. Because of inherent limitations in any internal control structure, errors or irregularities may nevertheless occur and not be detected. Also, projection of any evaluation of the structure to future periods is subject to the risk that procedures may become inadequate because of changes in conditions or that the effectiveness of the design and operation of policies and procedures may deteriorate.

For the purpose of this report, we have classified the significant internal control structure policies and procedures in the following categories:

ACCOUNTING APPLICATIONS

- Budget
- Cash and investments
- Revenue and receivables
- Expenditures for goods and services
and accounts payable
- Payroll and related liabilities
- Debt and debt service expenditures

For all of the internal control categories listed above, we obtained an understanding of the design of relevant policies and procedures and whether they have been placed in operation, and we assessed control risk.

Our consideration of the internal control structure would not necessarily disclose all matters in the internal control structure that might be material weaknesses under standards established by the American Institute of Certified Public Accountants. A material weakness is a reportable condition in which the design or operation of one or more of the internal control structure elements does not reduce to a relatively low level the risk that errors or irregularities in amounts that would be material in relation to the general purpose financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control structure and its operation that we consider to be material weaknesses as defined above.

However, we noted certain matters involving the internal control structure and its operation that we have reported to the management of the Town of Hampstead, New Hampshire in a separate letter dated April 19, 1993.

This report is intended for the information of management and the Board of Selectmen. However, this report is a matter of public record and its distribution is not limited.

Wachman, Clark & Co., PC

Hampstead Public Library Report—1993

The Board of Trustees and the Staff of the Hampstead Public Library wish to thank all who voted for the new library facility, a very big thank you! Many citizens helped make this goal a reality and we hope that this new building will be used and enjoyed by the citizens of Hampstead.

We had hoped that the facility would be ready by March 1994 but the target date is now June 1, 1994, and the staff hopes that we will be ready for the children for all the summer library programs.

The staff still managed to check-out over 51,000 items and over 25,000 people passed through the doors. From 1988 to 1993 circulation increased 73% and people 44%! We continue to borrow and lend items to other libraries throughout the state through Electronic mail.

Again, appreciation goes to all the individuals and organizations who have helped us so much. The Mother's Club continues to do a story hour which was conducted by Carolyn Cebula and Cathy Wight. Mother's Club also donated monies towards the pass to the Museum of Science and for children's magazines. The Hampstead Lions donated money toward a subscription for large-print best sellers and audio tapes, and the Hampstead Garden Club continues to place wreathes on our building and is planning to help beautify the new facility when completed. Kathe Cussen oversees our front garden; Art Leland of the Insurance Exchange donated bookmarks with our hours; and many citizens have donated magazines, books, audios, and videos to our collection.

Dorothy Roderick continued as President of the Friends of the Library. This group continues to enrich the life of the community with their many programs as well as support the library monetarily and physically. They help purchase the Science Museum pass as well as a pass to the Museum of Fine Arts. They sponsor the Summer Reading Program, and provide the matching funds needed to obtain the grant from the New Hampshire Humanities Council for the popular book discussion series. The Thrift Shop continues under their direction and was ably led by Fran Pruett. Proceeds of this project were used to purchase a new computer for the library along with monies raised from the raffle. Special thanks go to all the businesses that gave prizes to support this project and to Bob Bellisle of Belle Isle Travel who has organized a Library Travel Club to benefit the library.

Donations of computers were received from Randy Offord of Stillmeadow Bed and Breakfast, the Richard Breinlinger family and the David Hargreaves family. Two new work stations were added to the network, one of which is a public access catalog station located in the Children's Room. The adult station will be available in the new facility.

The library is proud of the fact that the computerization has taken place from donations and private fund raising with no public funds used. There is still need for technological equipment, but we hope to address this through private funding and/or grants as available.

The summer reading program, evening storyhours, crafts, and special events for the children have been provided by the expertise and enthusiasm of our Children's Librarian, Deede Laplante. The computerization and the interior planning of the new facility has been under the direction of Assistant Director, Judi Crowley. Louise Pryor continues to entertain the community with 'Hampstead Trivia', Mystery evenings, and so much more, Agnes Martin readies the materials for the shelf and does much of the office work, and Suzanne Trested and Betsy Daniels assist us all! The entire staff participates in professional and educational conferences and classes. The library is an active participant in our library cooperative and we communicate regularly with the school and local libraries.

So many people have volunteered their efforts on behalf of the library. Elsie Miller, Margaret Noonan, Elaine David, and Dorothy Roderick continue to help out weekly; Building Committee members Elaine David and Robert Chase have continued to work with the architect, Board, and staff, and Jim Angelo will be our 'Clerk of the Works' working with Peter Tennant, architect of Tennant/Wallace and with Bonnette, Page, and Stone, contractor. I am indebted to a very supportive Board of Trustees whose hard work enabled the town to have a new facility and library services that the town can be proud of.

It is a pleasure to work with such a dedicated and enjoyable staff. We are all looking forward to working with you and for you in the new facility.

Elizabeth B. Rooney
Director

Site of New Library

Hampstead Library Building Committee Report—1993

The building committee of the Hampstead Public Library was active over the last year with the planning of the new library building. After the town voted to approve, the library plans were developed with the architect Peter Tennant of Tennant and Wallace. The property was purchased from First Essex Bank and a specification package was sent out to bid by general contractors. The firm of Bonnette, Page, and Stone was selected as the general contractor. The reconstruction on the building was started in December with a planned completion date of June 1, 1994. The building committee would like to thank the Town for its support, and looks forward to moving into the new building.

Construction work on new Hampstead Public Library.

Public Library Trustee's Report—1993

The Hampstead Public Library Board of Trustees has had a busy and productive year. The Board thanks the Town for voting the funds for the new library building. We completed the purchase of the facility late in the year. The new plan was developed by the architect Peter Tennant of Tennant and Wallace, with the able assistance of Becky Rooney and Judi Crowley. Bids for the reconstruction were obtained and Bonnette, Page, and Stone was selected as the general contractor. Reconstruction started in December with a planned completion date of June 1, 1994.

We have continued to work on improving the library and have continued to expand our computerization to update our services. We would like to thank Randy Offord, of Stillmeadow Bed and Breakfast, the Richard Breinlinger family, and the David Hargreaves family for assisting in this by donating computers. We have been aided in providing service to the town by the generous assistance of many individuals and organizations. The Friends of the Library with Dorothy Roderick as president continues to provide much appreciated support. We would also like to thank the Mothers Club, the Hampstead Lions, Kathe Cussen and Art Leland for their support and assistance. We would like to thank our volunteers Elsie Miller, Margaret Noonan, Elaine David and Dorothy Roderick for the time they put in at the library.

Lastly, we would like to thank all of our staff who have worked so hard and continue to provide excellent library services to the community.

Jay P. Burns, Chair
Pamela Hartung

Report of the Building Inspector 1993

Report of the Welfare Officer

During 1993, the Town of Hampstead Building Department issued 17 permits for single family homes, a decrease of 67% from the preceding year. Also issued were 162 permits for alterations, expansions, swimming pools, sheds and decks, an increase of 30% over the preceding year. Recently we have had a 27 lot sub-division approved by the Planning Board, a 20 lot sub-division in the approval process by the board and numerous projects in the planning stages. In our opinion, the current lull in the building projects gives the town a respite from the continuing increases in operating expenses, the inevitable results of on-going developments.

In October, the Board of Selectmen allowed me to attend a week-long Building Officials Seminar at U/Mass. Amherst. It was an intense seminar which included up-dates in codes regarding building, electrical and plumbing departments of the building industry. I appreciate the opportunity to attend these seminars and the selectmen's ever present cooperation in this matter

The Welfare Department saw an increase of approximately 25% in applications for assistance during the year. This assistance included rent, utility payments, food and medical assistance. Although a large portion of our annual budget of \$70,000 was expended during 1993, and in spite of our extremely liberal welfare regulations, we suggested to the Board of Selectmen that our proposed 1994 Welfare Budget remain static for the year and we would do our best to work with the similar amount.

Thanks to the Board of Selectmen for their cooperation with this office during the year. Also to Fire Chief Paul Wentworth, whom also serves as a Deputy Building Inspector, a heartfelt thanks for his assistance. To the new Chief of the Fire Department, Kerry Clark, we welcome the opportunity to work with your department on a continuing basis. The nature of our responsibilities in the enforcement of the building codes and NFPA regulations makes a close relationship vital to the successful fulfillments of our goals.

To Dawn Shaw, my ever present secretary, an on-going Thanks. I would be the first to acknowledge that Dawn makes my day-to-day responsibilities easier to fulfill.

Kenneth H Clark
Building Inspector
Welfare Officer

TOWN OF HAMPSTEAD

PLANNING BOARD

11 MAIN STREET • HAMPSTEAD, NEW HAMPSHIRE 03841
TELEPHONE 603-329-6181 • FAX 603-329-6628

REPORT TO THE TOWN OF HAMPSTEAD

Subdivision and site plan activity has been decreasing steadily over the last five years and seems to have bottomed out toward the end of 1992. There was a slight increase in 1993 which reflects the average New England building activity which is expected to continue to increase slightly in 1994. Our overall estimate is that over the next ten to twenty years the population in Hampstead will grow by 2,000 to 3,000, topping out at about 11,000 people.

One consequence of this growth is a need for additional services and many of these also require capital acquisitions. Several of these are on the warrant for this year's annual meeting. The Capital Needs Committee has been examining the total capital needs for the Town for the next five years and I urge you to read their report. They have worked hard over the past year to collect the capital needs information from each department, "level load" them year to year and present the results in an understandable manner. The total amount of capital requests for 1994 is about the same as the capital expenditures in 1993. Note however that the operating budgets of the Town, County and School District are expected to increase which will cause the total tax burden to increase.

The Planning Board has a couple of "house-keeping" articles on the ballot. One proposal is for the Town to accept the last section of the federally mandated Flood Plain Zoning to keep the Town in compliance and eligible for flood insurance. The second proposal is to adopt the 1993 edition of the BOCA Building Code. The Planning Board has had public hearings on these and recommends the approval of both articles.

Respectfully submitted

Chairman Randy Clark
Vice Chairman Peter Killheffer
Secretary Susan Hastings
Proctor Wentworth
William Wuest
Tom Lindquist
Ex-Officio Rick Hartung

Budget Committee's Annual Report—1993

January 28, 1994

Dear Hampstead,

This year's Budget Committee was significantly different from the Budget Committee of last year. New members, Mark Cegalis, Jack Baumhor, and Linda Burnett joined Peter Archibald, Earl Gordon, and myself. Earl stepped down and Terry Pavlini agreed to finish Earl's term. We had a turnover of 50%. In spite of the turnover of half of our board the Budget Committee was able to impact the budget.

This year's budget, as proposed by the Budget Committee, was lower than last year's budget. If the Budget Committee's budget was approved by you, our taxes would not be flat, but would be reduced from last year.

Another significant accomplishment was the agreement made with the School Board, Selectmen, and Budget Committee. We agreed that starting next year, March 1995, the Town Meeting would go before the School Meeting and the two would alternate from that point forward.

The Budget Committee has a very difficult job, trying to understand all of the budget items of so many different and diverse departments. One of the problems the Budget Committee faces is the INCORRECT perception that the Budget Committee is ADVISORY.

In 1928 the Town adopted the Budget Committee with the following statement, "2. *To choose two for three years for the Budget Committee, whose duty is co-operating with the Selectmen to prepare, as prescribed by law, the annual Town Budget, and acting in an advisory capacity to make recommendations on the articles of the Town Warrant.*"

As my term on the Budget Committee comes to an end I ask that you consider giving the Budget Committee the responsibility that was defined in 1928. It is my interpretation that the 1928 definition does not make the Budget Committee advisory on the budget but advisory on warrants. The Budget Committee can serve you much better with the authority I believe, intended in 1928.

Very truly yours,

Joel Saren, Chairperson

HAMPSTEAD CAPITAL NEEDS COMMITTEE - 1993 REPORT

1993 was a very important year for the Hampstead Capital Needs Committee and the town of Hampstead. Much of the Committee's activities were focused at updating the Capital Improvement Program (CIP) in order to provide Hampstead with a complete picture of where its taxes could be heading. Although created through an appointment process by the Board of Selectmen in 1992, this was the first complete year of activity for the committee.

In the past, the long range financial planning of the Planning Board has taken an infrequent look at capital projects due in large part to the numerous responsibilities of the Board. The Capital Needs Committee was created as an adjunct to the Planning Board, principally for the purpose of evaluating long range capital needs in Hampstead on an annual basis. This action was taken under the guidelines of the New Hampshire Planning and Land Use Regulation statutes (RSA 674:5-8).

The 1993 goals established by the committee after town meeting in March, 1993 were to:

1. Develop a first generation model for capital planning..... COMPLETE
2. Organize the committee for efficiently acquiring data..... COMPLETE
3. Maintain a written record of all committee activities..... COMPLETE
4. Begin data collection consistent with updating the CIP for 1994-1999..... COMPLETE
5. Establish working relationships with all departments, boards and committees..... COMPLETE
6. Establish and implement a simple capital justification form..... COMPLETE
7. Complete capital justification forms for all identified capital projects..... COMPLETE
8. Complete a new CIP for the planning period 1994-1999 with appropriate backup
no later than 2/01/94..... COMPLETE
9. Present the new CIP report and recommendations at Town Meeting '94..... PENDING

This year the Committee took on the responsibility of identifying potential capital projects on a long range planning basis without regard for making specific project or priority recommendations. The decision to concentrate on establishing a process for identifying capital projects was made in the interest of demonstrating the value of the Committee and establishing the trust of other department, committee and board members. We believe that in submitting the 1994-1999 CIP Report that we have done just that – develop a functional process for long range capital planning and establish the trust necessary for future success.

Special thanks are extended to Randy Clark and Joel Saren, the *ex officio* members of the committee from the Planning Board and Budget Committee, respectively. Their guidance and assistance was greatly appreciated. We would also like to thank the other members of the Planning Board and Budget Committee; Joe Guthrie, our Selectmen Liaison; and two prior committee members whose efforts were instrumental in helping us to establish our capital review process: Jim Angelo, past chairman, and Florian Kozinczak. The assistance of Peter Dow, Senior Planner of the Rockingham Planning Commission is also acknowledged.

We also want to publicly thank every department, board and committee member who cooperated with the committee in this new approach to tracking capital expenditures. The efforts put forth by each group have gone a long way to inform Hampstead of the long range expenditures which are now under consideration. This effort will be repeated every year, and will assure that Hampstead taxpayers are never again asked to vote on a capital project without first having the opportunity to understand the full picture.

Master copies of the 1994-1999 CIP Report are on file with the Planning Board, Budget Committee, Board of Selectmen and the Hampstead Public Library. For anyone interested in learning more about the committee's activities, please review one of the 1994-1999 CIP report copies at your convenience. For additional information, please contact any Committee member.

TAKE THE INITIATIVE. Make it a point to go to the Annual Town and School Meetings every year with a thorough understanding of all capital requests, and the potential impact of the long range CIP plan on your future.

Respectfully submitted January 31, 1994,

Will Shain
Chairperson

Howard Davine
Vice Chairperson

Police Department Report—1993

The year 1993 was one in which your Police Department showed their utmost dedication to service and duty. When Officer Frederick Whiting developed a serious heart problem that required extensive surgery the remaining members of the department took up the five shifts per week. Each and every officer gave 100% during this seven month period so that our town was never without professional coverage. Thankfully Officer Whiting returned to work and has fully recovered.

In our continued effort to increase visibility we were able to decrease burglaries from twenty-two last year to a near record low of seven. You, the residents, are to be commended as we received many calls reporting suspicious activity and with quick response we may have prevented problems.

Thefts increased from thirty-six to forty-two, mostly from parked unlocked motor vehicles. Thefts of motor vehicles increased from three to seven. Motor vehicle accidents rose 15%, yet injuries resulting from these accidents decreased 20%. Reports of vandalism decreased from ninety-two to fifty-eight with most of the damage being done to mailboxes. Persons should be reminded that it is not only a criminal offense to damage mailboxes but also a federal offence. Domestic complaints decreased from a record number of sixty to forty-three. Arrests and court cases showed a slight decrease from last year.

Juvenile cases decreased from a high of 46 to 31 in which 54 persons were involved. Once again the cooperation between the courts and the Police and Family Mediation Program worked well to divert many young offenders into Community Service or other programs thereby bypassing the court system. This action produced a savings of time and money to the town and state.

Our annual Firearms Class was held on January 10, 1994, with 22 attending. Instructor Frederick Whiting reports this is the largest class to date.

Extra training classes have been developed and our new firing range was utilized to its utmost. All officers received the required firearms training and most received double the training hours set by N. H. Standards and Training.

Officer William Ahie and his canine Tyson have continued their commitment to the Town of Hampstead by attending classes in tracking and drug detection. The classes were held in various locations in Massachusetts, Connecticut and Maine. We are very fortunate to have their expertise on our department.

Thanks to all the Officers who gave so willingly of their time and to their wives for their consideration of the many late meals and missed appointments. Special thanks to all the residents and other departments for your continued support, without which we would have a much more difficult job.

Fire Department Report—1993

This year we would like to honor two individuals for 50 years of service to the department. Gene Duston and Alfred (Hink) Brickett have both served in many capacities including chief. They continue to provide stability through their experience to the younger and older members of the department.

The Hampstead fire Department, like all other organizations continually undergo changes, some good and some less fortunate. In January Walter "Chip" Hastings did not seek reelection to the Board of Engineers. Chip has served the town as Fire Chief for fifteen years and has been an inspiration for both old and new members of the department. The services that he has provided the town have been invaluable and are greatly appreciated by all concerned.

Physical examinations for the entire department were conducted during 1993. This was done with the recommendations of our insurance carriers to insure that all personnel are physically capable to perform the strenuous duties of fire fighting.

The department took a new approach to fire prevention during the year. In October, the Dover Fire Department provided the town with a training trailer that could be filled with smoke. The intent of this unit was to train children how to respond when their home undergoes a similar situation and this program has had very positive reviews from both parents and children alike.

Obtaining information for the new street directory has turned out to be a time consuming and difficult project. A survey was mailed to all property owners within the town, with only approximately one third of 2900 surveys being returned. This information could be of an invaluable assistance in the case of an emergency. Al. Brickett spent many hours of data entry and the return rate was very disappointing.

Enhanced 911 is due to be in New Hampshire in the near future. The Police and Fire Department representatives have met with state officials concerning the implementation of this system. All calls for assistance will go to a central operator, and then forwarded to a Dispatch Center.

During the year, Chauk Ambulance Service chose a site on Route 121A in East Hampstead to house a full-time ambulance. This provides a more timely response and will better serve the towns of Hampstead, Atkinson and Newton. This unit provides advanced life support capabilities and offers skilled paramedics, the highest trained personnel found in non-hospital environment.

A clothes washer and dryer were purchased during the year for the Central Station. It has been determined that smoke residue on turn-out clothing can be absorbed through the skin and we deemed this equipment was vital for our well being.

Hampstead Board of Adjustment Report—1993

Record of action for 1993

- 17 Requests for variance , 11 of which were granted.
- 40 Requests for special exceptions, 37 of which were granted.
- 2 Requests for rehearing were granted, 1 of which was reversed.
- 2 Requests for rehearing were denied.
- 1 Request for rehearing was granted and action is pending .

This has been my second year as chairman, and my fifth year as a board member . In the past year we have contended with changes in the seasonal conversion ordinance . Two cases have been appealed to the courts. I believe that the courts will uphold our decisions .

Most of the variance requests heard were for lot line or wetland set backs errors discovered in surveys for refinancing or sales . The foundation certification process, for new construction, now in effect should reduce these errors in the future . We expect to hear many more such cases because most construction in town predates foundation certification .

The amended sign ordinance has lessened our difficulties with local businesses . I hope that we can maintain a balance with the needs of business and the interests of the town .

I encourage everyone to be involved in the zoning process , by attending public hearings , and carefully reading proposed changes when voting . You can help make decisions that are fair to all.

Respectfully submitted,

Robert J . Cairns , Chairman
Hampstead Board of Adjustment

Report of the Assessing Department—1993

We believe that the real estate market has finally leveled off. In spite of the precipitous decline in values during the past few years, studies indicate that there have been far fewer foreclosures in the last few months and the ratio of sales to assessments has held steady for this period, which is a good test of market conditions.

During the year, it was determined that the assessment levels of land, residential property, commercial properties and in the case of the mobile home, the mobile home park influence factor, was not supported by market data. Because of this testing, we took steps to lower assessments to more accurately reflect the market. We believe that since the revaluation in 1989 and three subsequent years this factor was valid, but the current market conditions did not support this factor which resulted in a dramatic lowering of assessments on mobile homes.

Being aware of an on-going factoring problem in Recreational Zone B that has persisted since the 1989 revaluation, during the 1993 budget process, funding was provided to do an up-date in this area. When we investigated the situation it was revealed that some Zone B properties, of similar size and amenities, had multiplier factors ranging from 1.75 to 4.0. To further show the necessity of our actions in regards to the up-date, a glaring example is the difference in the land valuation of a 5,000 square foot lot with a neighborhood factor of 1.1 and a multiplier factor of 1.75. The dollar amount of the tax commitment on this particular parcel of land, not considering the improvements, would be \$803.00. Similarly, the same 5,000 square foot lot with a neighborhood factor of 1.1 and a multiplier factor of 4.00, would have a tax commitment of \$1,835.00. Contrary to some public opinion, this situation did in fact exist in some cases and our obligation was to protect those with a factor of 1.75 and also those who were unlucky enough to have the 4.00 factor.

Although, rightly so, some property owners were quick to inform this office and the Board of Selectmen that they had suffered a massive dollar increase in their tax commitment, we believe, as suggested when the problem first arose, that the abatement process was the only acceptable and legal means to address their grievances. We believe the abatement process has worked. We believe the situation that persisted has been corrected. With some slight fine-tuning during the 1994 tax year we believe our assessments will stand the tests and scrutiny of the most critical individuals.

In spite of the abatement process, it would be folly to suspect that all tax payers will be happy with the final results and will have their opportunities to present their case before the Board of Tax and Land Appeals.

The Code of Ethics, that all assessors subscribe to, has been adhered to. Our goal is equitable tax commitments realizing that an attempt to make all taxpayers happy will inevitably meet with failure.

Kenneth H.Clark C.N.H.A.
Town of Hampstead Assessor

1994 Town Warrant – Town of Hampstead, NH

To the Inhabitants of the Town of Hampstead in the County of Rockingham in said State, qualified to vote in Town Affairs:

You are hereby notified to meet at Hampstead Middle School in said Hampstead on Tuesday, the 8th day of March, next at ten of the clock in the forenoon, to act upon the following subjects:

- 1. To choose all necessary Town Officers for the year ensuing.
- 2. To choose all necessary School Officers for the year ensuing.
- 3. To see if the town will vote to amend the Zoning Ordinance as proposed by the Planning Board as follows:

AMENDMENT #1

Under the section titled FLOOD PLAIN DEVELOPMENT ORDINANCE, insert the following definition on Page 31, Article II Section 3:

"Recreational Vehicle: means a vehicle which is (a) built on a single chassis; (b) 400 square feet or less when measured at the largest horizontal projection; (c) designed to be self propelled or permanently towable by a light duty truck; and (d) designed primarily not for use as a permanent dwelling but as temporary living quarters for recreational, camping, travel or seasonal use."

Insert the following regulation on Page 36, Article II Section 3:

"Recreational vehicles placed on sites within Zones A1-30, AH, and AE shall either (i) be on the site for fewer than 180 consecutive days, (ii) be fully licensed and ready for highway use, or (iii) meet all standards of Section 60.3 (b) (1) of the National Flood Insurance Program Regulations and the elevation and anchoring requirements for "manufactured homes" in Paragraph (c) (6) of Section 60.3"

Recommended by the Planning Board.

Recommended by the Board of Selectmen.

- 4. To see if the town will vote to adopt the 1993 BOCA National Building Code Book with the following provisions:

As proposed by the Hampstead Planning Board to amend Article I-3 of the Hampstead Zoning Ordinance by deleting Article I-0, I-3:1, I-3:2 and I-3:3 and replacing them with the following sections:

1-3:0 AN ORDINANCE ESTABLISHING MINIMUM

REGULATIONS GOVERNING THE DESIGN, CONSTRUCTION, ALTERATION, ENLARGEMENT, REPAIR, DEMOLITION, REMOVAL, MAINTENANCE AND USE OF ALL BUILDINGS AND STRUCTURES; PROVIDING FOR THE ISSUANCE OF PERMITS, COLLECTION OF FEES, MAKING OF INSPECTIONS; PROVIDING PENALTIES FOR THE VIOLATION THEREOF; KNOWN AS THE BUILDING CODE AND REPEALING EXISTING ORDINANCE "ARTICLE I-3" OF THE ZONING REGULATIONS OF THE TOWN OF HAMPSTEAD, STATE OF NEW HAMPSHIRE.

1-3:1 SECTION 1.ADOPTION OF BUILDING CODE.

Pursuant to RSA 674:51 (a) that a certain document, three (3) copies of which are on file in the office of the Town Clerk of the Town of Hampstead being marked and designated as "The BOCA National Building Code, Twelfth Edition, 1993" as published by Building Officials and Code Administrators International, Inc., be and is hereby adopted as the Building Code of the Town of Hampstead in the State of New Hampshire; for the control of buildings and structures as herein provided; and each and all of the regulations, provisions, penalties, conditions and terms of said BOCA National Building Code, are hereby referred to, adopted and made a part hereof as if fully set out in this Ordinance, with the additions, insertions, deletions and changes, if any, prescribed in Section 2 of this Ordinance.

I-3-2 SECTION 2. ADDITIONS, INSERTIONS AND CHANGES.

That the following sections are hereby revised as follows:

Section 101.1 Insert "Town of Hampstead"

Section 112.3.1 change to read:

"Estimated Value of Construction

From	To	Fee for Building Permit
\$0	\$5,000.00	\$30.00
5,001.00	10,000.00	35.00
10,001.00	25,000.00	40.00
25,001.00	50,000.00	50.00

Over the estimated value of \$50,001.00, a permit fee of 1/10th of one percent (.1%) will be charged.

A fee of \$125.00 shall be charged for a single family residence, with an additional fee of \$25.00 for the residences that contain a legal in-law apartment.

A duplex will be charged a fee of \$150.00.

Condominiums and apartments shall be charged at a rate of \$75.00 per unit.

FOUNDATION PERMITS	\$25.00

Private Schools	\$25.00
Commercial Business	\$35.00
Re-inspection fee after initial rejections of any work authorized under this permit schedule	\$25.00
DRIVEWAY PERMIT FEE	\$25.00"

Section 116.4 Insert

In accordance with the requirements of NHRSA 676:17, any person who violates a provision of this code or shall fail to comply with any type of the requirements thereof or who shall erect, construct, alter or repair a building or structure in violation of an approved plan or directive of the code official, or of a permit or certificate issued under the provisions of this code

- (a.) Shall be guilty of a misdemeanor if a natural person, or guilty of a felony if any other person.
- (b.) Shall be subject to a civil penalty not to exceed \$100.00 for each day that such violation is found to continue after the conviction date or after the date on which the violator receives written notice from the municipality that he is in violation, whichever is earlier.

Section 117.2 Insert

"UNLAWFUL CONTINUANCE

Any person who shall continue any work in or about the structure after having been served with a stop work order, except such work as that person is directed to perform to remove a violation or unsafe condition, shall be liable to a fine of not less than \$100.00."

Section 3408.2 Insert MARCH 8, 1994.

Recommended by the Planning Board.

Recommended by the Board of Selectmen.

5. Shall we permit the public library to retain all money it receives from its income-generating equipment to be used for general repairs and upgrading and for the purchase of books, supplies and income-generating equipment?

Recommended by the Board of Selectmen.

Recommended by the Budget Committee. (Advisory only).

6. To see if the town will vote to raise and appropriate the sum of \$2,189,294.00, which represents the operating budget. Said sum is exclusive of all special articles addressed.

General Government	\$617,453.00
Public Safety	396,479.00
Highways	431,080.00
Sanitation	383,800.00
Health	53,227.00
Welfare	70,000.00
Culture & Recreation	186,585.00
Debt Service	50,670.00
	\$2,189,294.00

Recommended by the Board of Selectmen.

Not Recommended by the Budget Committee. (Advisory only)

7. Shall the town accept the provision of RSA 33:7 providing that any town at an annual meeting may adopt an article authorizing indefinitely, until specific rescission of such authority, the selectmen to issue tax anticipation notes?

Recommended by the Board of Selectmen.

8. To hear reports of Auditors and Committees and to act thereon.

Recommended by the Board of Selectmen.

9. To see if the town will vote to authorize the Selectmen to convey any real estate acquired by the town by tax collector's deed, excluding those parcels of real estate which the Conservation Commission recommends for retention in the best interest of the town. Such conveyance shall be by deed following a public auction, or the property may be sold by advertised sealed bids, or may be otherwise disposed of as justice may require, pursuant to RSA 80:80, 8:42 and 80:42a. Such authority shall be authorized indefinitely, until rescinded by town meeting vote.

Recommended by the Board of Selectmen.

10. To see if the town will authorize the Selectmen to accept private donations of land, interest in land or money for the purposes of contributing to the local matching portion required for acquiring conservation land or interest in land and other costs associated therewith for permanent conservation use under the N.H. Land Conservation Investment Program (LCIP) RSA 221:A and authorize the Selectmen to apply for and accept the state matching funds under the LCIP for the purposes of acquisition of the fee or lesser interest in conservation land. Said appropriated funds and state matching funds may be expended by a majority vote of the Conservation Commission with the approval of the Selectmen.

Recommended by the Board of Selectmen.

11. Shall the town accept the provisions of RSA 31:95-b providing that any town at an annual meeting may adopt an article authorizing indefinitely, until specific rescission of such authority, the selectmen to apply for, accept and expend, without further action by the town meeting, unanticipated money from a state, federal, or other governmental unit or a private source which becomes available during the fiscal year?

Recommended by the Board of Selectmen.

12. Shall the town accept the provisions of RSA 202-A:4-c providing that any town at an annual meeting may adopt an article authorizing indefinitely, until specific rescission of such authority, the public library trustees to apply for, accept and expend, without further action by the town meeting, unanticipated money from a state, federal or other governmental unit or a private source which becomes available during the fiscal year?

Recommended by the Board of Selectmen.

13. To see if the town will vote to authorize the Board of Selectmen to accept gifts of personal property which may be offered to the town for any public purpose, pursuant to RSA 31:95-e. The selectmen must hold a public hearing before accepting such gift, and the acceptance shall not bind the town to raise, appropriate, or expend any public funds for the operation, maintenance, repair or replacement of any such personal property.

Recommended by the Board of Selectmen.

14. To see if the town will vote to authorize the Board of Selectmen to accept, on behalf of the town, gifts, legacies, and devises made to the town in trust for any public purpose, as permitted by RSA 31:19.

Recommended by the Board of Selectmen.

15. To see if the town will vote to grant an easement to the owners of Tax Map 1, Lot 29, and their successors-in-interest, to construct, install and maintain a subsurface disposal system on land owned by the Town of Hampstead, and known as Tax Map 1, Lot 46 (Ordway Park); such easement to be appurtenant to Tax Map 1, Lot 29; and to be approximately 40 feet by 40 feet; and to be located as directed by the Hampstead Health Officer and to be entirely under the present grade with no above-ground improvements: This vote being subject to the approval by the Rockingham County Probate Court pursuant to a Petition to Modify the Trust under the Will of Martha Ordway; such petition to be brought by the town, but paid for by and on behalf of the owners of Tax Map 1, Lot 29.

Recommended by the Board of Selectmen

16. To see if the town will vote to accept the donation of the Eli and Bessie Cohen Foundation of \$5,500.00.

Recommended by the Board of Selectmen.

Recommended by the Budget Committee. (Advisory only)

17. To see if the town will vote to raise and appropriate the sum of \$182,000.00 for the purpose of building an addition to and renovation of the Town Office Building, including some office furnishing and transition expenses for temporary relocation of affected departments while construction is in progress.

Recommended by the Board of Selectmen.

Recommended by the Budget Committee. (Advisory only)

18. To see if the town will vote to raise and appropriate the sum of \$5,000.00 to install lighting in the Memorial Gym.

Recommended by the Selectmen.

Recommended by the Budget Committee. (Advisory only)

19. To see if the town will vote to raise and appropriate the sum of \$45,000.00 for the purpose of purchasing a utility/forestry truck for the use of the Fire Department.

Recommended by the Board of Selectmen.

Recommended by the Budget Committee. (Advisory only)

20. To see if the town will vote to raise and appropriate the sum of \$25,000.00 to add to the Capital Reserve Fund established in 1993 for the purpose of purchasing a new rescue vehicle in 1995.

Not recommended by the Board of Selectmen.

Recommended by the Budget Committee. (Advisory only)

21. To see if the town will vote to raise and appropriate the sum of \$25,000.00 for the purposes of excavating and constructing four (4) concrete pads to be located at the Hampstead Central Fire Station at the entrance of each truck bay.

No recommendation by the Board of Selectmen.

Not Recommended by the Budget Committee. (Advisory only)

22. To see if the town will vote to adopt the following regulations for the West Hampstead Cemetery:

To keep the cemetery gates open Monday and Friday from 7:00 A.M. to 3:00 P.M.

To post that the gates will be open from 7:00 A.M. to 3:00 P.M. one week before a holiday to one week after a holiday, currently including Memorial Day, Independence Day and Veterans Day. The gates will remain locked at all other times. Anyone needing

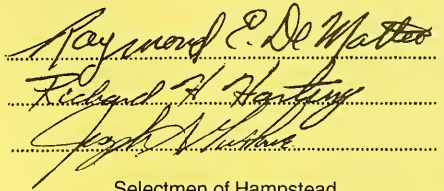

vehicle access to the cemetery may call a trustee or the sexton to unlock the gates. At least 24 hours is requested to have the trustees open the gate.

Recommended by the Board of Selectmen.

23. To see if the town will vote pursuant to RSA 231:22:a to classify Hemlock Heights Road as a Class V road.

Given under our hands and seal, this 18th day of February,
in the year of our Lord nineteen hundred and ninety four.

A true copy of Warrant—Attest:

.....
.....
.....

Selectmen of Hampstead

The polls will not close before 6:00 P.M. It is understood that
a motion will be made at the opening of the meeting that the
polls remain open until 8:00 P.M.

Articles 3, 4, and 5 will be voted by ballot on March 8, 1994.

The remaining articles will be voted at the business meeting
which will be held on Friday, March 11, 1994, at 7:00 P.M. in
the Middle School Gymnasium.

ATTENTION

INVENTORIES are mandatory. They must be filed with the
Selectmen on or before April 15th. Forms are distributed by
mail.

ELDERLY EXEMPTIONS are available to persons 65 and
older. Anyone not receiving the exemption may obtain
information from the assessor.

VETERANS should understand that it is their responsibility
to request forms for tax exemption.

The SELECTMEN meet in their office in the Town Office
Building on the second and fourth Monday of each month at
7:30 P.M.

The PLANNING BOARD Regular Meeting is held on the first
Monday of every month at 7:30 P.M.

The BOARD OF ADJUSTMENT meets on the first Thursday
of every month at 7:00 P.M. Meetings are held in The Meeting
House on Emerson Ave., across from Central School.

HELP! We ask your assistance in the following: If you have a line item of appropriation which is made up of appropriations from more than one (1) warrant article, please use the space below to identify the make-up of the line total. We hope this will expedite the tax rate process by reducing the number of inquiries from this office.

TOWN OF HAMPSTEAD

HIGHWAY DEPARTMENT
11 MAIN STREET • HAMPSTEAD, NEW HAMPSHIRE 03841
TELEPHONE: 603-329-5110

Road Agent Report—1993

1993 ended the major reconstruction of roads started in 1987, with the completion of West Road, from Hemlock Heights to Route 111.

The rest of West Road was repaved, plus East Road, Bloody Brook Road, Butterick Road, Kimberly Road, Longview Drive, Woodridge Road and Emerson Avenue from Wash Pond Road to Route 111.

With the installation of two catch basins and culvert at the intersection of Pillsbury Road and Odd Fellows Road, a severe ice problem was eliminated. The rest of the paving will be completed this year on Pillsbury Road.

Now that the major reconstructions are completed, we have to repave certain roads each year to keep them in good condition.

Every year, when the highway budget is appropriated, it is taken into consideration the amount of money received from the State in the form of a Highway Block Grant. This money is used for maintenance, construction and reconstruction of Class 1V and V highways. In 1993, the town received just under \$90,000.00. In 1994 we will receive \$89,939.35. The money, which comes from gas tax, is based on the miles of roads per town.

Respectfully Submitted,

Proctor Wentworth

Conservation Commission Annual Report—1993

The major event of the year was the purchase of five acres and the acquisition of a conservation easement on four more acres, all along Darby Brook. This nearly completes the protection of this watershed from Route 111 to the Plaistow town line. Thanks to Joan Jones, Robert & Edna Fletcher, and Wes & Victoria Hodgman for making this possible.

Traditional Events

The annual Cleanup Day gained momentum this year, with over thirty participants. This year's event is scheduled to coincide with Earth Day in April.

The commission again co-sponsored the fishing derby, always a popular event with kids and parents alike.

The commission also sponsored readiness class visits to Shop Pond, as in the past.

The commission continued the Arbor Day tradition by giving out black walnut seedlings. Stay tuned for this year's offering.

Dredge & Fill

One of the duties of the Conservation Commission is to review dredge & fill permits; the commission's opinion is valued by the state wetlands board. This year the commission processed six permits.

Trail News

Several hundred residents attended the opening of Trail VI in the Darby Brook area. Fred Martell was on hand to answer questions and point out details to those that marveled at the historic mill site.

Nature Notes

As you walk the trails in the Darby Brook area this year, you might be interested to know that many interesting and even spectacular birds and animals inhabit the area. Among them are the following:

Leaving Golden Meadow Drive you pass through an area of upturned stumps that is home to the winter wren, a small brown bird that pops in and out of the root and brush and fills the April days with a bubbly song that seems improbable for such a small bird.

~~Another~~ early arrival and denizen of this area is the Louisiana waterthrush, a warbler that spends most of its time working the edges of the stream for food, but will fly high up into a tree to make its song audible over the rush of the spring torrents.

Continuing downstream you might be lucky enough to flush a barred owl bathing in the stream on a summer morning, or hear it calling on cloudy days from the dark groves of hemlock. Overhead you're likely to hear the red-shouldered hawks calling and defending

their territory, from the first sunny days of March. Later on the broad-winged hawk arrives, but his plaintive whistle from the sky above hardly seems like a hawk at all. If you encounter him sitting in the woods, he may seem tame. This hawk often shows up in people's backyards in summer time, and its relatively small size would not lead you to believe that it goes all the way to South America for the winter.

In the dark groves of hemlocks few birds can be seen, but the songs of the black-throated green warbler, scarlet tanager, purple finch may heard from down below.

At any time you may encounter a great blue heron, possibly flying in with a stick to rebuild this year's nest. Over twenty pairs have nested in the area for the past several years.

In winter you are likely to find the tracks of fisher and otter, if you take the time to look.

Mammals are hard to see here, but the mill site is the home to weasels, the stream is home to mink, and the odd moose is always a possibility.

Heading north from the mill site you pass through newly acquired areas that are home to the solitary vireo, whose slow warbling song continues well on into the summer after other birds have given up. Here in the hemlocks are more black-throated green warblers and barred owls as well.

North of Starwood drive there is a magnificent sight to be seen in late summer as the drying stream bed bursts forth with masses of cardinal flowers, while a crested flycatcher may often be seen hawking for insects over the clearings.

One of the most spectacular birds of the area is often heard but rarely seen. This is the black, white and red pileated woodpecker, as large as a crow, whose calls and drumming resonate through the valley in springtime. That such a large bird can be so quiet while it chips out its oval holes in white pine trees is amazing. This bird can tell with a tap whether a tree is hollow and infested with carpenter ants. Let's hope they don't discover some of the houses built in the boom of the eighties!

Hampstead Solid Waste Report — 1993

Hampstead residents are among the most environmental friendly around.

- We placed at curb side 2,421 tons of trash and converted this to 1,452,600 kilowatt hours of electricity, enough to supply the year round electrical needs of about 223 homes. The ash resulting from this conversion occupies only 15% of the landfill space required by the original trash.
- We recycled, at curb side, 219 tons of aluminum, glass and newspaper.
- We participated for the second year in a multitown Household Hazardous Waste disposal program that properly disposes of these hazards.

Recycling is an area that we need to improve upon. For the second year in a row recycling tonnage was down. We recycled 47 tons less in 1993 and this cost an addition \$2500 in disposal fees. Newspaper accounted for nearly the entire decrease. The requirements for recycling newspaper continue to change but basically to recycle, newspaper must be dry and not contain any colored flyers or inserts. The colored flyers and inserts must be placed with your regular trash.

A new tipping contract and the future of the Kent Farm Road Facility will be major undertakings for the Solid Waste Committee in 1994. Resident input to these projects and other tasks is needed. The Solid Waste Committee is looking for new active members to work on it's various tasks.

The following is a summary of solid waste activities:

RESIDENTIAL REFUSE DISPOSAL / TIPPING

Current

Year	1993	1992	1991
Tons tipped	2,421	2,430	2,301

Refuse is tipped at Penacook, NH where it is burned to produce electricity.

Each ton produces 600 kWhr of power. The average home uses about 6,500 kWhr per year.

Hampstead's 2421 tons per year provide the electrical needs for about 223 homes.

Hampstead has contracted tipping since Jul 1989 with Wheelabrator Technologies Inc.

The tipping fee for 1993 was \$53.75

This contract expires 1-Jul-94

A Request for Proposal will be sent out in March for a new multiyear contract.

Historical

Hampstead owned and operated an open burning dump on Kent Farm Road prior to 1940 until 1979.

From 1979 to 1982 residential refuse was tipped at a private Hampstead landfill,

which had a State approved closure in 1983.

From 1982 to 1989 residential refuse was tipped at the Kingston Landfill.

A portion of Hampstead's tipping fee was "set aside" for future closure of this site.

Hampstead left the Kingston Landfill when a new contract starting July 1989 had no definitive "set aside" for future closure.

RESIDENTIAL REFUSE CURBSIDE PICK-UP & HAULING

Current

Refuse is picked up at curbside and taken to Penacook, NH.

There are approximately 2400 household pick-ups per week.

Hampstead has contracted with Hussey Disposal Co. to provide weekly pick-up.

This contract expires 31-Dec-94

This contract can be extended yearly to 31-Dec-95

This contract has an annual increase set at 2.75%

Historical

Hampstead began residential curbside pickup in 1978.

RECYCLING CURBSIDE PICK-UP

Current

Year	1993	1992	1991
Aluminum	12.9	13.6	15.1
Glass	108.1	113.2	121.6
Newspaper	97.6	138.7	150.3
TOTAL	218.6	265.5	287.0

Approximately 2400 household pick-ups per week

The 1993 annual cost for pick-up was \$27,013 avoided costs \$11,750

net cost of Recycling \$15,263

Hampstead has contracted with Hussey Disposal Co.

Recyclables belong to the pick-up contractor.

This contract expires 31-Dec-94

This contract can be extended yearly to 31-Dec-95

This contract has an annual increase set at 2.75%

The Town owns 4000 recycling bins. 3200 bins have been distributed for

resident use 800 bins are in storage at the Town garage.

Historical

Hampstead began curbside recycling Sept 1990.

HAMPSTEAD SOLID WASTE SUMMARIES

KENT FARM ROAD SOLID WASTE FACILITIES

Hampstead owns and operates a 70 acre Solid Waste facility on Kent Farm Rd.

This facility contains:

Unused dump and burn landfill of approximately 3-5 acres

Transfer station area for bulky wastes

Landfill

The State in 1985 ordered towns to plan for and implement state-of-the-art landfill closures on all landfills. Unused landfill were to be closed, used landfills were to have their capacity determined and closure date planned, any new landfills must be double lined state-of-the-art.

Hampstead approved a warrant article for \$30,000 in 1990 to begin hydro studies and complete closure. To-date \$9,000 has been spent to obtain a report defining the boundaries of the landfill. The next phase of this project is to obtain state approval on the location of wells.

Bulky & Other Wastes

The Town has a contract for bulk disposal from the Kent Farm Rd Facility with C & J Trucking, Inc.

The Town provides its residents with seven days per year for disposal of

Tires	Construction & Demolition Debris
Brown goods	Wet Cell Batteries
White goods	

SEPTAGE

Hampstead has never had a contract with any facility or hauler to accept septage.

Currently residents must contract a private hauler who carries to Concord or Lawrence.

149M SOLID WASTE PLANNING

State law requires that every town join a solid waste planning district

or sub district and submit to the State every two years

an acceptable 20 year solid waste plan. This plan must cover

Residential refuse	Construction & Demolition Debris
Recycling	Household Hazardous Wastes
Tires	Infectious/Pathological Wastes
Bulky Wastes	Waste Oil
Stumps	Commercial & Industrial Wastes
Wet Cell Batteries	Incinerator Residue
Special Wastes	

Hampstead's plan was developed by the Quadtown Solid Waste Sub-District.

Hampstead voted to form & join Quadtown at the March 1989 Town Meeting.

Quadtown is a four town subdistrict of the 21 town Southeast Regional

Solid Waste District (SRWD).

Quadtown's original plan was submitted and approved with the Southeast

Regional Solid Waste District in March 1991 and updated in March 1993.

Report of the Southeastern New Hampshire Hazardous Materials Mutual Aid District — 1993

The Southeastern New Hampshire Hazardous Materials Mutual Aid District was formally established in October of 1992. The original district included the towns of Londonderry, Derry, Windham, East Derry, Pelham, Hudson, Windham, Chester, Atkinson, and Hampstead. Since the formation of the district, the town of Litchfield has been accepted as a member.

The purpose of the district is to prepare our communities, on a regional basis, for response to hazardous materials incidents, both with training and equipment. The cost for a single community to afford to fund a separate hazardous materials response program is prohibitive. If you will remember, the gasoline tanker incident in Londonderry on Route 93 in January of 1991 strained the resources of the entire area, and highlighted the need for a regional approach to hazardous materials incidents. Member communities also realized the liability exposure they faced if they used a piecemeal approach for dealing with hazardous materials.

The District management organization consists of a Board of Directors; members of which are Selectmen, Councilmen, or Administrators from each community; and an Operations Committee, members of which are chief officers from each community.

Each member community contributes \$3,500.00 per year to the district to fund training and equipment purchases. During the 1993-94 fiscal year, two trailers are being purchased, which will be strategically located, stocked with petroleum spill equipment and will be able to respond anywhere within the district. The District has also acquired a rescue truck from a member community; and this will also be stocked with spill control equipment. Air monitoring equipment, and the training for the equipment, will also be provided to member communities this fiscal year. In addition, The district has substantially completed the minimum training mandated by federal law for emergency responders to hazardous materials incidents. It is the policy of the District to develop a slow, thorough, approach to the hazardous materials problem. Meeting all federally mandated training levels, and providing our firefighters with the proper equipment to do the job.

Since hazardous materials incidents are typically the most costly ones which we respond to, a cornerstone of our policy is the most effective method of recovering the costs which local communities incur as a result of our responses to hazardous materials incidents. If you remember, each member community passed a hazardous materials ordinance, the purpose of which is to aid in recovering taxpayers money spent in controlling an incident.

The District has been accepted as a regional Local Emergency Planning Committee, which is required to be in place in each community by Federal Superfund law. This aids those communities that do not have their own LEPC.

The District has applied for and received a federal planning grant. It is our intention to apply for all available federal or state aid to offset the cost to the local taxpayer.

The District is also developing policies and procedures to standardize how our fire departments respond to hazardous materials incidents.

A great deal of planning, training, and equipment purchasing has been accomplished, and a lot still needs to be done; but we are well on our way to meeting our original goal, that is, the most cost effective manner of responding to hazardous materials incidents.

Respectfully Submitted,

For the Board of Directors

For the Operations Committee

Chief Alan J. Sypek

Report of Plaistow Area Transit Advisory Committee — 1993

PATAC (Plaistow Area Transit Advisory Committee) was formed with volunteers from NH towns that neighbor Plaistow. The initial goal of PATAC was to bring commuter rail service to Plaistow by extending the existing Haverhill train 3 or so miles to Plaistow. Although PATAC now has much broader goals, it continues to be made up of volunteers and does not receive any funding or dues from any local, state, or federal agencies. Our sole source of funding is through our annual "Christmas Tour of Boston" fund raiser.

Plans started in 1991 to develop an intermodal Park and Ride facility in Plaistow are now well under way and the long-sought goal may finally become a reality in 1995. The site for the Park and Ride lot in Plaistow has been selected; it will be on Westville Road between Scandia Plastics and Freedom Tire. A true intermodal facility, the Park and Ride lot will ultimately let commuters transfer easily between different modes of transportation. In Plaistow's case the modes will be bus, car, train, and possibly a few pedestrians or cyclists.

The Rockingham County Planning Commission, with help from PATAC, brought the necessary parties together that allowed the COACH Company to apply for, and receive, CMAQ (Congestion Mitigation Air Quality) funding. This funding will establish a commuter bus to Boston starting in Epping, NH and continuing south on Rt 125 to Kingston and Plaistow where it will continue non-stop to Boston. The Plaistow stop will be the Park and Ride location on Westville Rd. In fact the Park and Ride lot will 1st be used as a bus stop before it becomes a true Park and Ride lot. When commuter rail service is established, the bus riders will then transfer from the bus to the train for an even speedier commute to Boston.

The NH Department of Transportation will develop the Westville road site to enhance it from just a bus stop to a Park and Ride lot to a Park and Ride lot with a commuter rail station similar to the one that exists at the Bradford Station. PATAC, the Plaistow Planning Board, and the Plaistow Board of Selectmen will all have a great deal of input for the State DOT as plans progress for the Park and Ride.

PATAC will continue to work towards its goal of bringing intermodal transportation to all surrounding communities. We wish to thank the voters and residents for their continuing support.

Respectfully Submitted,

Timothy E. Moore,
PATAC Chairman, Plaistow

PATRIOTIC PURPOSES & VETERANS AFFAIRS COMMITTEE

TOWN OF HAMPSTEAD, NEW HAMPSHIRE

February 4, 1994

To the Residents of the Town of Hampstead:

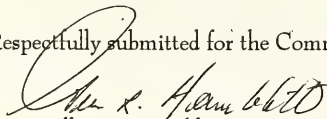

Each year the Patriotic Purposes & Veterans Affairs Committee works diligently as a resource to the community, its veterans, and its veterans' families. This past year, the Committee provided veterans assistance to 55 veterans' families, established and maintained a Veterans Affairs informational board at the town hall, participated in leadership seminars for New Hampshire and Massachusetts secondary schools, and held patriotic observances throughout the year. The Committee worked very close with Hampstead's VFW Post 11254, the Girl and Cub Scouts, Garden and Civic Clubs, and the Middle School Band and Chorus. We appreciated their unfailing assistance.

One of the Committee's goals is to instill pride and patriotism in our citizens, and insure that the men and women who secured our freedom are remembered in our daily lives. This past Memorial Day began with a solemn ceremony and awards presentation in the morning, and ended with a lively concert in the afternoon by The Air Force Band of Liberty. Independence Day was another opportunity for a traditional family concert by the 39th US Army Band. Throughout the year, the Committee held twelve observations and ceremonies in memory and honor of our veterans.

Since the Committee's inception of a Veterans Memorial Park in town, the Committee works diligently to develop a park for everyone's enjoyment. Every year our efforts and work continue to make the Veterans Memorial Park an honored piece of the town's landscape. To this end, the Committee raised funds through the sale of POW/MIA shirts, tag sales, and a yard sale. We also received generous support from private donations and the support of VFW Post 11254.

After many hours of work and collaboration with state and local agencies, the Committee presented formal plans to the Board of Selectmen for a memorial retaining wall along Main Street in front of the Veterans Memorial Park. The cement and fieldstone wall will be in keeping with the town's historic flavor, with a sidewalk and steps in the front to allow easy access to the park. Although the Committee has not asked for assistance in funding other projects, we requested the Selectmen to consider partially funding this addition to the park. We also respectfully solicit support from all Hampstead residents and businesses.

Respectfully submitted for the Committee,

Allun R. Hamblett, Secretary

John T. Oliver, Chairperson

Maurice I. Randall, Jr., Treasurer

Hampstead Recreation Commission Report—1993

The Hampstead Recreation Commission(HRC) administers and supervises several of the recreation programs and facilities available to the citizens of Hampstead. Members include: Don Simpson, Phil Torre, Nancy Davine, Terry Pavlini, and Jan Santagate. The position of Recreation Director was held by Patti Christensen. After her resignation, Charlene Flaherty assumed the role. The HRC meets every third Monday at 7 p.m. in the Town Hall, and the meetings are opened to the public.

The summer program for children was our major yearly activity, involving approximately 350 children, ages 6 through 13. Program sites were the Memorial Gym and the Hampstead Central School. Some of the activities offered were:sports and arts and crafts. Special activities provided were: a magician, a water carnival, a penny carnival, trips to the Town Beach, and several exciting field trips. There was also a program for Junior Counselors, who gave of their time to make our program a great success. Thanks also goes to Deb Shost, the summer program supervisor. Her efforts to keep things organized and running smoothly were appreciated.

The Little Red Wagon Theatre gave performances in town thanks to the joint sponsorship of the Men's Civic Club this year.

The Town Beach was a popular spot on hot days. The HRC maintained and staffed the site. Beach permits are required and are available at the Town Clerk's Office in Town Hall. Fees are five dollars for residents and twenty-five dollars for non-residents. The permits are valid for the year.

The Hampstead Memorial Gym was continually in use. Residents who wish to use the facility should call the Recreation Director for scheduling. Besides Civic Club Basketball for children, there are also men's league basketball, the Masters basketball, volleyball, and CRA activities held on a regular basis.

The tennis courts were heavily used again this summer, and there also was a very successful Tennis Tournament held. Special thanks goes to Nelson Currin for organizing and running the tournament once again. HRC would like to extend its thanks to Nelson Currin, who has moved, for his dedicated work with activities in town. His expertise will be missed, and we wish him well.

The HRC's youth soccer school was very well attended, with younger children receiving instruction the first week, and older children the second. The campers had fun and sharpened their skills under the direction of Coach Ray Flaherty and his assistants.

Once again Hampstead was well represented at the Hershey Track and Field events. Tim Ordway, Kerri Smith, and Mike Cutting were state champs in their respective categories and age groups; and they went on to the Nationals

in Pennsylvania, where they did very well. Mike Cutting earned the distinction of being the United States champion for the softball throw in his age group! Congratulations to him and all those who participated.

Between the summer programs, the sale of beach stickers, and gym rentals, the HRC has generated approximately \$14,000 in revenue.

Extensive work was done on field and grounds in conjunction with a warrant article from last year. The Jack Wood Memorial Field and play area were worked on and reseeded. Separately, much needed work was done on the Little League field located at Hollday Lane.

Our NYSCA program for coaches continued to offer certification programs. A 1st, 2nd, and 3rd year certification clinic was held in November, with basketball being the sport specifically addressed. Another clinic will be held on March 22, 1994 at 6:00 p.m. at Hampstead Middle School. Softball and baseball will be featured along with the year certification programs.

The Annual Senior Citizens' Dinner was held in December and attended by nearly 170 of our seniors. We extend our thanks to all the business professionals and volunteers who helped to make the day enjoyable. Also, we'd like to acknowledge Edna Fletcher, Elsie Carideo, and Al Feno for their hard work organizing activities on the seniors' trip committee. Our appreciation also goes to Lillian Hurn, who also worked with this group, but who has recently moved.

The HRC must also thank the active members of our community who give of their time and talent to assist us in our varied programs. Volunteers add to the success of all of our programs.

In closing, the HRC wishes to thank Patti Christensen for seven years of service as Recreation Director. Because of her organizational skills and enthusiasm, HRC's summer programs flourished: the Town Beach, Rec, soccer clinics, tennis, the Red Wagon, and Hershey Track and Field. We wish her success in future endeavors.

Respectfully submitted,

Charlene Flaherty

HAMPSTEAD SCHOOL BOARD

REPORT OF THE CHAIRPERSON

TO BUILD OR NOT TO BUILD an addition to Middle School - that is the decision you'll have to make on March 5th, at the Annual School District Meeting.

The proposed addition will provide academic space for 175 additional students, music and unified arts classrooms, media center, computer lab., special education therapy and testing rooms, plus redesigned and renovated administrative, guidance, reading, medical, and teachers' workspace. Included in the proposal and eligible for 30% state aid are: a new boiler, oil tanks replacement, 40 new parking spaces, plus resurfaced and enlarged roadways - items now required by the age of the school but that we would have to otherwise pay in full.

The need is real. Middle School needs additional classroom space to reach the 600-student capacity required by the year 2000. We are almost there: Middle School will have 476 students THIS FALL. Since the 1992 six-room addition increased its net capacity to just 425 students, there is no questions that an addition has to be built NOW ... or to start building "Portable City".

It is no secret that some people maintain that the 1992 6-room addition is "all the addition you're going to get"; others wistfully hope that the addition question would go away; while others do not believe that a need exists. Those contentions are based more on emotion than reality, although the underlying skepticism is understandable. The bases of that skepticism are:

1. *Student enrollment figures are not credible; they are inflated.*

It is true that in March 1990 the voters were told that the SAU's R-8 enrollment forecast for 1994-95 was 1329 students (HCS = 729; HMS = 600), a 68% increase over the 790 students (HCS = 468; HMS = 322) then in the schools. No one believed it: time proved them correct.

In 1991 the School Board replaced the SAU forecasting model with the more credible and realistic NESDEC model. The NESDEC model has proven to be extremely accurate over the last four years. Thus, we have full confidence in next year's R-8 student forecast of 1026 students (HCS = 550; HMS = 476), or a 23% increase over the same period. That's a whopping 303 students (or 12 classrooms' worth) LESS than the SAU forecasted in 1990!

2. *We don't need so much space; the school will be half empty in 8 years.*

That is simply not true. Actual and forecast enrollments are indicated on the chart shown below. While the yearly increases will be smaller, HCS and HMS populations will remain above 560 students: thus, space will just match student enrollments.

3. *We cannot afford it; wait another year.*

The opposite is actually the case. We CANNOT AFFORD TO WAIT because we'll spend the money one way or the other, beginning this year! 1993 was, in fact, the last year when portables were an option and we could sit and do nothing without any major financial impact.

	<u>Year</u>	<u>HCS</u>	<u>HMS</u>	<u>Total</u>	<u>Diff.</u>	<u>% Change</u>
Actual	1992-93	530	424	954	-	-
Actual	1993-94	556	430	986	32	3.4%
	1994-95	550	476	1026	40	4.1%
	1995-96	570	498	1068	42	4.1%
	1996-97	560	532	1092	24	2.2%
	1997-98	545	568	1113	21	1.9%
	1998-99	560	561	1121	8	.7%

Total Student Growth 1993-98 = 135 13.7%

This is why. Since the students are already here, we must provide space for them. Thus, IF THE BOND DOES NOT PASS, the cost of the bond (10 cents this year, about 54 cents in the highest year, 1995) will be spent anyway to rent portables and pay for additional utilities this and every year hereafter.

The financial reality is this: with portables, we would be paying the same tax/amount of money for less than half the space of the addition and without any residual value to the taxpayers until we eventually build the addition - a net loss to the taxpayers and not a sound business decision. Worse yet, we'll have to pay the full cost of boiler and oil tank replacements plus the resurfacing of roadways within the next three years, estimated to add another 35 cents to the tax rate.

There is help on the horizon, however. The \$350K Firehouse bond will be paid in 1995, and the \$3 million Central School addition will be paid in 1998. Together, they account for \$1.08 of the current tax rate. Since the HMS addition is expected to cost about 54 cents in the highest year, our tax costs for capital

improvements will drop from \$1.62 in 1995 to about 42 cents in 1998, a savings of \$240 at today's tax rate for a home valued at \$200K.

Educationally, the issue is simply a question of space, not of quality: new buildings do not add quality to education any more than new busses do.

Realistically, it is a question of dollars and cents. The proposed bond combines new space plus major mechanical and structural repairs/replacements required by the age of the building at the lowest possible cost to the taxpayer! Simply put, would you rather pay the money out to rent or would you rather build equity for the Town?

REGARDLESS OF WHETHER YOU FAVOR THE ADDITION OR NOT, building the addition NOW is clearly the most sensible, economically sound long-term financial decision for the taxpayers and the town.

Your vote is crucial. Please attend the Public Hearings, become informed, and VOTE ON MARCH 5th!

Jorge Mesa-Tejada, Chairperson
Hampstead School Board

REPORT OF THE ASSISTANT
SUPERINTENDENT OF SCHOOLS

As the principals' reports demonstrate, we are continually striving to improve the education program, e.g. Science (Project Rise), and technology. However, I believe I must devote my report this year to a single theme - GROWTH. Hampstead's student population is continuing to grow.

In the decade of the 1980's, Hampstead was one of the fastest growing towns in the rapid growth area of Southern New Hampshire. Between 1980 and 1990 the fastest growing population segment* in Hampstead was the "under five's". Such growth is directly attributed to the significant increase in the age 18-44 years group (most babies are born to this group). As a result of this growth, the Hampstead Central School now has 556 students! This wave of students is now reaching the Middle School. In other words, even if no other families were allowed into the School District, the Middle School enrollment will continue to grow through the year 2000.

Our Middle School was originally designed to accommodate 300 students; in 1992 a portion of the proposed addition was

built to increase the capacity to 425 students. Currently, the building houses 430 students. In five years, the Middle School enrollment will approach 600 students! Since we do not have adequate classrooms to accommodate next year's students, the current budget, as of this writing, includes four "portable classrooms". Portables are a necessary, but expensive, short-term solution to our space problem.

In Hampstead the quality of life has always been closely tied to how well we educate our children. The efforts of our staff and the support of the whole community for our schools are truly commendable. However, we now hold computer classes in the cafeteria, have teachers "carting" their materials from room to room, and our Unified Arts instruction hours are below the State standards. Our challenge is to continually improve our services to students; however, the current reality is that we don't have adequate space. We need classrooms.

Dr. Mark R. Masterson
Assistant Superintendent of Schools

HAMPSTEAD MIDDLE SCHOOL

* The New England School Development Council (NESDEC) Hampstead Demographic Report 1991

PINKERTON ACADEMY REPORT

Among the 1993 highlights were the formation, and subsequent activities, of two new Pinkerton Academy committees. Both were aimed at solving problems associated with two issues facing, not only our society, but teenagers in particular: cultural diversity and citizenship.

Last spring, led by the efforts of the Academy's Student Council, two programs were organized to celebrate cultural diversity. The goal was to promote an awareness, understanding, and respect for the diversity that makes all individuals unique and interesting. Pinkerton students were, and are encouraged to support an educational climate where similarities between all people become a cornerstone of their school community.

Activities included a program designed especially for parents and featured speakers on "The Value of the Multi-Cultural Experience" and "Racism, the Truth and Myths". The highlight was a stimulating performance by the Boston Youth Theater group. Their dance presentation portrayed the similarities of cultures, and their potential strengths when joined together.

Another program, for students, was an all-day series of seminars featuring a variety of presenters and topics on cultural diversity including Mr. Santos Hawks Blood Suarez, who gave an enlightening presentation on the myths, traditions, and history of Native Americans, and Mr. Teja Arboleda (known as "Ethnic Man") whose one-person play explored character studies and family images from around the world.

Another major stride taken in 1993 was the formation of the Citizenship Committee. Its mission statement is: *"To raise awareness of our students and faculty about citizenship, to create forums for discussion and dialogue, and to increase each individual's consciousness as to the responsibilities he or she has within the community."*

Pinkerton hopes to engender in our young people a sense of community which will develop into a sense of responsible citizenship extending beyond our campus. Our goal is to create learning experiences which will foster a spirit of community, promote participation by an informed citizenry, reinforce principles of democracy, and support a code of conduct based on courtesy, respect and responsibility.

Among the projects taken on by the Citizenship Committee was "Refuel the School" to benefit the Valmeyer, Missouri, school system devastated by last summer's midwestern floods. Over \$1,000 in cash and a supply of desperately needed school supplies was sent to the stricken community.

Committee members also arranged a visit by Ovid Lamontagne, Chairperson of the NH State Board of Education, to discuss citizenship with faculty members. This group also sent personalized letters to 18-year old students informing them of their newly-acquired rights and responsibilities, and decorated bulletin boards around the campus to highlight citizenship issues. Faculty members have demonstrated their support of the committee's goals by wearing tee-shirts carrying a "courtesy, respect and responsibly" logo.

Hampstead's representative on the Pinkerton Board of Trustees is Mr. John Lydon, who is also serving as Board President this year.

HAMPSTEAD MIDDLE SCHOOL

REPORT OF THE PRINCIPAL

This report is written from the perspective of the Principal after six months on the job. When I came to Hampstead Middle School in September, school had been in session for three weeks. Mr. Zacchilli was acting principal and did a superb job of opening the school. The school was orderly with schedules and routines well established.

The Middle School opened this year with an enrollment of 432 students, two more students than projected. (Incidentally, next year's enrollment is projected to be 476 students.) Even though the school was "operating smoothly", it was obvious to me that the overcrowded conditions were creating several significant problems that detracted from a good middle school. First, there were two teachers (grade 6 and grade 8) without their own classroom. These teachers have to move to an available classroom when students are in art, music, industrial arts, etc. In reality, the traveling sixth grade language arts class meets in a different room every period, including the use of the art room and industrial arts room. The eighth grade traveling class experiences the same situation. Traveling from classroom to classroom has several serious drawbacks: reduced learning time each period, the elimination of flexible scheduling or periods for all classes, teachers cannot work in their room during their planning period, and the traveling teachers have no home base to establish their own learning environment. Next year the school will have three teachers without rooms and with 476 students in the building, there will not be enough room to handle three traveling teachers.

Another area of concern is the lack of teaching time for the Unified Arts classes: art, music, physical education, home economics, industrial arts, band and chorus. The state recommends a minimum of thirty hours of instruction each year for the Unified Arts classes. Because of insufficient staff, our children receive anywhere from twelve to twenty-four hours of instruction a year, depending on the grade level. We have added several academic teachers over the past several years but have neglected the Unified Arts area. If we do not increase our staffing, the time allotted to each child will be further reduced to the point of being totally ineffective.

Aside from the problems created by lack of space and staffing, there are two ongoing initiatives that I am excited to share with you.

First, technology has invaded our library. We have computerized our circulation procedure and students now research available library books by computer terminal. The seventh and eighth science class will have computers networked to the library for students to do science research locally in the school's library or off-site using a modem. Eventually, we will network all classrooms in the same manner. The proposed 1994-95 budget includes money to purchase and install a satellite dish enabling the school district to access boundless educational opportunities for the students and staff alike.

The other initiative is focused on improving science instruction throughout the district. Hampstead is one of ten districts participating in a three year program that brings teachers together each summer for three weeks of intensive training to examine the latest teacher techniques and science units. We have already seen the benefits of the first year of training where students are being exposed to more hands-on learning activities in their science classes.

Hampstead Middle School 2-4-94

In closing, I want you to know that the Middle School is an open and friendly place to work and learn. The children are happy, attentive, and want to do well in school. Our faculty works very hard and is sincerely interested in providing an environment for every child to be successful. We have volunteers helping out daily and certainly welcome one and all to come and visit with us, or better yet, volunteer to work with our students!

Richard Fugere
Principal

HAMPSTEAD CENTRAL SCHOOL

REPORT OF THE PRINCIPAL

I returned to the Central School as Principal after five years as Principal at Middle School. Prior to 1987 I was Principal at both schools. Kathleen Sciarappa, former HCS Principal, and the staff have done an outstanding job managing growth and improving the curriculum. When I left in 1987, there were 312 students in Readiness through Grade 4. Now there are 556 students plus another 40 children in our Pre-school program.

The Unified Arts Team is an exceptionally talented and important part of the school community. The Special Education Department has implemented an Inclusion Program for our children. Despite very limited resources, the Technology Committee has worked hard to provide a viable technology program for the staff and children. The District Technology Committee has made excellent use of last year's warrant article money. The school library now has the book collection bar coded much like grocery items in supermarkets. We have also received free or inexpensive computers from the community, UNH, and commercial vendors so that all classrooms have one computer and printer.

"JOHNNY APPLESEED" JUG BAND

(l to r) David Burke, Joey Sillo, Robin Lewis

Perhaps our best kept secret is the fact that Hampstead is a Student Teacher Center for Keene State College. Through our association with Keene State, the Hampstead Schools have had over 55 student teachers in the past three years. These young people have brought ideas, enthusiasm, and another set of hands into our classrooms. The concept of teachers training student teachers at our school site is working well. The HCS has three graduates on the staff.

My first impression this past September was that the school was too large. The concept of "personalizing" the education of 596 children is a daily challenge. Young children should have a sense of belonging. Part of that sense is name recognition by the adults in the building. I have attempted to be known and to know individuals by implementing the management strategy "MBWA" - Management By Wandering Around. My daily visits to classrooms has helped. I also supervise lunch and recess for grade 4 students each day.

"JOHNNY APPLESEED"

(l to r) Kyle Smith, Sarah Ian, Jeremy Sherman, Gillian Fairchild, Rachell Camm

The cafeteria is too small for the student population. Four lunch periods run from 11:30 a.m. until 1:10 p.m. Thanks to approval of the School Board, picnic tables were added to the school grounds for outdoor eating. We ate outside almost daily until mid-November. We have conquered the outside litter problem. Now we have to find a procedure to deal with the unwelcome lunch guests - bees.

I'm also concerned about not having teaching space dedicated to the teaching of art and computers. Hopefully, enrollments will stabilize so as to avoid adding portable classrooms.

In summary, I am happy to be at the HCS and am pleased with the education program. However, there is room for improvement. We will continue looking toward the future and will make adjustments or additions to our programs and procedures in a thoughtful and reasonable manner.

Robert P. Little
Principal

COMMUNITY THANK YOU !

The Hampstead School District is most appreciative of the generosity of the citizens as they help us maintain and improve the quality of our schools. We gratefully acknowledge some of the donations we have received from the community during the past school year:

SCHOOL WARRANT
STATE OF NEW HAMPSHIRE

To the inhabitants of the School District of the Town of Hampstead, New Hampshire, qualified to vote in District affairs.

You are hereby notified to meet at the Hampstead Middle School in Hampstead, New Hampshire, on Saturday the fifth day of March, 1994, at 10:00 a.m. in the forenoon to act on the following articles: (Snow date Monday, March 7th at 7:00 p.m.)

Building Addition Bond

1. To see if the Hampstead School District will vote to raise and appropriate the sum of Two Million Eighty-Six Thousand Dollars (\$2,086,000) for the construction and equipping of an approximate 24,000 sq. ft. addition and 3,000 sq. ft. renovation to the existing structure at the Hampstead Middle School, in Hampstead, New Hampshire, said sum to be in addition to any federal, state, or private funds that may become available, and to authorize the issuance of not more than Two Million Eighty-Six Thousand Dollars (\$2,086,000) of bonds or notes in accordance with the provisions of the Municipal Finance Act (RSA Chapter 33), and to authorize the School Board to issue and negotiate such bonds or notes and to determine the rate of interest thereon.

First Year Interest on Bond

2. To see if the Hampstead School District will vote to raise and appropriate the sum of Forty-Six Thousand Nine Hundred Thirty-Five Dollars (\$46,935) to pay the first interest payment due on the borrowing authorization under Article I above.

Hampstead Support Personnel Association Contract

3. To see if the Hampstead School District will vote to approve the cost items included in the Collective Bargaining Agreement reached between the Hampstead School Board and the Hampstead Support Personnel Association which calls for the following increases in salaries and benefits:

Cost Distribution

	Year 1	Year 2	Year 3
Salaries	\$ 9,164	\$ 9,035	\$ 9,035
FICA	701	691	691
Retirement	299	295	295
Longevity	300	300	150
Insurance	<u>1,943</u>	<u>4,557</u>	<u>5,013</u>
Total	\$12,407	\$14,878	\$15,184

Recommended by the School Board (Vote: Unanimous)

Operating Budget

4. To see what sum of money the Hampstead School District will vote to raise and appropriate in addition to money already appropriated under prior warrant articles, for the payment of salaries of School District officials and agents and for the support of schools and for the payment of the statutory obligations of the District.

Recommended by the School Board - \$7,835,569 (Vote: 3 for, 2 against)

5. To see if the Hampstead School District will vote to authorize the School Board to apply for, accept and expend, without further action by the School District meeting, money from the state, federal, or other governmental unit or a private source of donations in any other form (land, equipment, etc.) which becomes available during the 1994-95 school fiscal year, provided that such expenditure be made for which a school district may appropriate money and that such expenditure not require the expenditure of other School District funds.

6. To see if the Hampstead School District will vote to accept the reports of agents, auditors, and committees.

7. To see if the District wishes to take any other action which may legally come before the meeting.

Given under our hands at Hampstead, New Hampshire, this fifteenth day of February, 1994.

S.S.

FINANCIAL REPORT OF THE HAMPSTEAD SCHOOL DISTRICT

Fiscal Year Beginning July 1, 1992 and Ending June 30, 1993

CERTIFICATE

This is to certify that the information contained in this report was taken from official records and is complete and correct to the best of our knowledge and belief. The accounts are kept in accordance with Section 17 of Chapter 21-J of the Revised Statutes Annotated, and regulation Chapter Rev 1100, Financial Accounting for Local education Agencies on file with the Administrative Procedures Act, and upon forms prescribed by the Department of Revenue Administration.

INDEPENDENT AUDITOR'S REPORT ON FINANCIAL PRESENTATION

To the Members of the School Board
Hampstead School District
Hampstead, New Hampshire

We have audited the accompanying general purpose financial statements of the Hampstead School District as of and for the year ended June 30, 1993, as listed in the table of contents. These general purpose financial statements are the responsibility of the School District's management. Our responsibility is to express an opinion on these general purpose financial statements based on our audit.

We conducted our audit in accordance with generally accepted auditing standards. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the general purpose financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the general purpose financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall general purpose financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

As described in Note 1B, the general purpose financial statements referred to above do not include the General Fixed Assets Account Group, which should be included to conform with generally accepted accounting principles. The amount that should be recorded in the General Fixed Assets Account Group is not known.

In our opinion, except for the effect on the financial statements of the omission described in the preceding paragraph, the general purpose financial statements referred to above present fairly, in all material respects, the financial position of the Hampstead School District as of June 30, 1993, and the results of its operations for the year then ended in conformity with generally accepted accounting principles.

Our audit was made for the purpose of forming an opinion on the general purpose financial statements taken as a whole. The combining and individual fund financial statements listed in the table of contents are presented for purposes of additional analysis and are not a required part of the general purpose financial statements of the Hampstead School District. Such information has been subjected to the auditing procedures applied in the audit of the general purpose financial statements and, in our opinion, is fairly presented in all material respects in relation to the general purpose financial statements taken as a whole.
